

Remarks and Argument

The Examiner required the Applicant to elect one of the following:

- I. Claims 1-13, generally drawn to a vehicle mirror and system; or
- II. Claims 14-17, generally drawn to a method of viewing and mounting a mirror.

The Applicant elects to proceed with category I, namely, Claims 1-13, generally drawn to a vehicle mirror and system. While the Applicant respectfully disagrees with the Examiner's determination, the Applicant does not traverse the notice. The Applicant reserves the right to pursue at a later time divisional or continuation patent protection for Claims 14-17, drawn generally to a method of viewing and mounting a mirror.

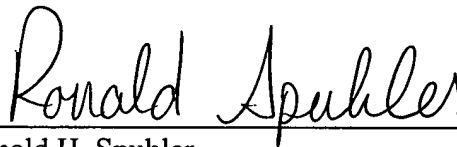

Conclusion

The Applicant elects to proceed with Claims 1-13. A notice of Allowance is courteously requested.

If the Examiner has any questions, he may contact the undersigned at any time.

The Commissioner is authorized to charge any necessary fees or credit any overpayment to the Deposit Account of McAndrews, Held & Malloy, Account No. 13-0017.

Respectfully submitted,

Ronald H. Spuhler
